JAYANA INDUSTRIES

ACE Generix™

High Performance, Excellent Value HPLC and UHPLC columns

High Efficiency 1.8µm, 3µm and 5µm Particles

- High purity spherical silica
- Ultra-narrow particle size distribution for excellent column efficiency
- C18, C8, Phenyl-Hexyl and SIL phases

Excellent Reproducibility

- Manufactured in the UK in ISO9001 and ISO140001 accredited facilities
- Sharp, highly symmetrical peaks for acidic, basic and neutral analytes
- Every column individually tested and supplied with a test chromatogram
- Excellent column-to-column and batch-to-batch reproducibility

Excellent Column Lifetime

- Highly stable bonded phases for long column lifetimes
- Ultra-robust HPLC and UHPLC column packing technology
- High performance guard system available

Phase Specifications
